Appreciation

REPETITION

In the poem, you will notice that these lines come multiple times.

O wind, a-blowing all day long,
O wind, that sings so loud a song!

In many poems, some words or lines are repeated. This is called repetition. Poets use repetition to make their poems sound like songs.

G Here is an extract from a poem. Underline the lines that are repeated.

They went to sea in a Sieve, they did,
In a Sieve they went to sea:
In spite of all their friends could say,
On a winter's morn, on a stormy day,
In a Sieve they went to sea!

Phonics

CONSONANT BLENDS

Read these words from the poem.

blow, grass

You will notice that the coloured letters in each word have very different sounds that are combined to form one sound. We call them consonant blends.

Consonant blends are two or three consonants that come together in a word. When we pronounce them, we hear each sound clearly.

Note that:

- each letter keeps its own sound.
- the letters blend together separately.
