

STAR PLAY SCHOOL

Dear Parents,

Today's assignment

👉 E.V.S new chapter done(The Place for Learning - Reading + explanation + back exercise + new words + Question/Answers)

👉 Maths work done in book (learning multiplication - word problems pg no. 72&73)

Home Assignment

👉 Learn and write the tables of 5 to 11 in maths notebook and be prepared for tomorrow's oral test.

Edited 1:49 pm ✓✓

Solution: Number of boxes = 5
 Number of muffins in each box = 15
 Total number of muffins = $15 \times 5 = 75$
 Thus, there are 75 muffins in total.

Example: There are 3 buses and each bus can carry 122 passengers. How many passengers can all the buses carry in total?

Solution: Number of buses = 3
 Number of passengers in each bus = 122
 Total number of passengers = $122 \times 3 = 366$
 Thus, there are 366 passengers in total.
