Paste your
copy.

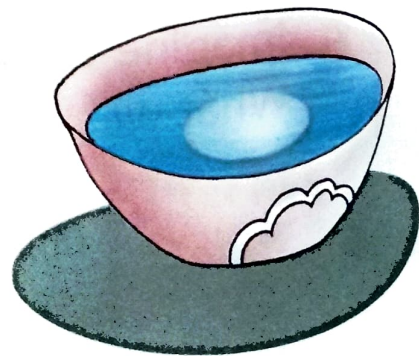

5 Here Is the Moon!

Ajit and his family are at dinner. His baby sister Veena does not want to eat. Ajit's Grandmother carries her to the balcony. Grandmother shows her the dark sky with twinkling stars and the bright moon.

Veena smiles at the night sky. She begins to eat her food. After some time she asks Grandmother to get her the moon. Ajit hears this and laughs. 'Finish your food, and I will get you the moon,' says Grandmother. Ajit wonders how Grandmother will get the moon. He waits anxiously for the moment.

Soon Veena finishes eating. Grandmother washes her mouth. She goes to the kitchen. She returns with a big bowl filled with water. She gently places the bowl in the balcony. She tells Veena that her moon is in the bowl. Veena is happy. She can see the moon in the bowl filled with water. She has got her moon.
