Word Problems

Q1. There are 3841 cats in an animal rescue shelter. 1762 more cats are brought into the shelter. How many cats in the shelter now?

Ans- There are cats in an animal rescue shelter = 3841

more cats are brought into the shelter
= 1762

$$\begin{array}{r} \textcircled{1} \textcircled{1} \\ 3841 \\ + 1762 \\ \hline 5603 \end{array}$$

There are 5603 cats in the shelter now.

Q2. A flock of 8461 bats take to the sky. Another 4280 bats join the flock. How many bats in all?

Ans- A flock of bats take to the sky
= 8461

Another bats join the flock = 4280

$$\begin{array}{r} \textcircled{1} \\ 846 \\ + 42 \\ \hline 127 \end{array}$$

There

$$\begin{array}{r}
 8461 \\
 + 4280 \\
 \hline
 12741
 \end{array}$$

There are 12741 bats in all.
